EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Change the title to --Semiconductor device with upper portion of plugs contacting source and drain regions being a first self-aligned silicide--.

At page 4, line 32, change "a silicon plug" to --silicon plugs--.

At page 4, line 33, change "plug" to --plugs--.

At p. 5, line 5, change "region" to --regions--.

At p. 5, line 11, change "a silicon plug" to --the silicon plugs--.

Allowable Subject Matter

2. Claims 1-19 are allowed.

3. The following is an examiner's statement of reasons for allowance:

The prior art does not disclose applicant's claimed "semiconductor device," particularly characterized by the claimed pair of "silicon plugs" electrically contacting source and drain regions, *and* an "*upper portion*" of the pair of plugs "being a *first self-aligned silicide* portion."

Applicant's method is particularly useful for producing a floating body cell memory with lower wiring resistance *and* a stable charge-storage portion [e.g. see "first embodiment" described at p. 7, lines 30-34].

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
